* Length of burn time and BTU range depend on type of wood, moisture content, climate conditions and installation.
** Varies depending on home floor plan, house layout, heat loss of the house and quality/moisture content of wood.
NOTE: All product specifications are subject to change without notice. Before installing refer to the relevant product manual for full and up-to-date information.

For installation, framing and clearances see manuals on our website: www.regency-fire.com

NOTE: Be aware that local Codes and Regulations may override some clearances listed in this manual. Check with your local inspector. Clearances to combustibles are for the safety of the property. To avoid overheating and damaging the appliance these clearances should be maintained for non-combustibles also.
